Re: Vine Street Waterline Replacement Project

Dear Resident/Business:

The Town of Herndon's Public Works Department would like to inform you of a construction project in your neighborhood. The Vine Street Waterline Replacement project is expected to begin on March 1, 2018 and construction is anticipated to last for approximately two months. Test pits will start the week of February 19, 2018. Vine Street, between the dead-end west of Ferndale Avenue to the intersection of Grace Street, will be impacted during construction. Construction activities include replacing the existing waterline on Vine Street.

The contractor's typical working hours will be 7:00 AM to 4:00 PM Monday thru Friday. During construction, it is anticipated that traffic will be maintained with occasional lane closures through the construction zone. Access to properties may be temporarily unavailable for short periods of time during construction. You will be notified prior to driveway closures in person, or via a letter from the Department of Public Works and/or the contractor.

Your patience and assistance during this project is greatly appreciated, as we work to make these improvements. Please contact me at any time during the construction work at 703-435-6853. Project updates will also be provided at www.herndon-va.gov.

Sincerely,

Zeljko Spasojevic
Project Engineer
